

SAFETY DATA SHEET

According to 29 CFR 1910.1200 Hazard Communication Standard 2012 (HazCom 2012)

Product identifier			
Product name	NED Powder		
Product number	R-0923		
Recommended use and restrictions	To be used in accordance with manufacturer instructions or under the direct guidance of th manufacturer.		
Manufacturer	Taylor Technologies, Inc. 31 Loveton Circle Sparks, MD 21152 Phone: (410) 472-4340 Emergency phone: (800) 837-8548		
CTION 2: Hazard(s) Identific	cation		
Physical hazards	Corrosive to metals	Category 1	
Health hazards	Eye damage/irritation	Category 1	
	Skin corrosion/irritation	Category 1C	
Environmental hazards	Not currently regulated by OSHA. For additional information, refer to section 12 of the SI		
Signal word	Dangar		
Signal word	Danger	are align huma and aprious are domage	
Hazard statements	Danger May be corrosive to metals. Causes seve	ere skin burns and serious eye damage.	
Hazard statements Precautionary statements	May be corrosive to metals. Causes seve		
Hazard statements	May be corrosive to metals. Causes seve Do not breathe dust or mists. Wash skin gloves/protective clothing/eye protection/ IF IN EYES: Rinse cautiously with water present and easy to do. Continue rinsing center. IF SWALLOWED: Rinse mouth. I Immediately take off all contaminated clo clothing before reuse. IF INHALED: Rem breathing. Immediately call a physician o	thoroughly after handling. Wear protective face protection. Keep only in original container. for several minutes. Remove contact lenses, if . Immediately call a physician or poison control Do NOT induce vomiting. IF ON SKIN (OR HAIR thing. Rinse skin with water. Wash contaminated love person to fresh air and keep comfortable for	
Hazard statements Precautionary statements Prevention	May be corrosive to metals. Causes seve Do not breathe dust or mists. Wash skin gloves/protective clothing/eye protection/ IF IN EYES: Rinse cautiously with water present and easy to do. Continue rinsing center. IF SWALLOWED: Rinse mouth. I Immediately take off all contaminated clo clothing before reuse. IF INHALED: Rem breathing. Immediately call a physician o material damage.	thoroughly after handling. Wear protective face protection. Keep only in original container. for several minutes. Remove contact lenses, if . Immediately call a physician or poison control Do NOT induce vomiting. IF ON SKIN (OR HAIR thing. Rinse skin with water. Wash contaminated tove person to fresh air and keep comfortable for r poison control center. Absorb spillage to preve ant container with corrosive-resistant inner liner.	
Hazard statements Precautionary statements Prevention Response	May be corrosive to metals. Causes seve Do not breathe dust or mists. Wash skin gloves/protective clothing/eye protection/ IF IN EYES: Rinse cautiously with water present and easy to do. Continue rinsing center. IF SWALLOWED: Rinse mouth. I Immediately take off all contaminated clo clothing before reuse. IF INHALED: Rem breathing. Immediately call a physician o material damage. Store locked up. Store in corrosive-resist Keep tightly capped. Store out of direct s	thoroughly after handling. Wear protective face protection. Keep only in original container. for several minutes. Remove contact lenses, if . Immediately call a physician or poison control Do NOT induce vomiting. IF ON SKIN (OR HAIR) thing. Rinse skin with water. Wash contaminated ove person to fresh air and keep comfortable for r poison control center. Absorb spillage to preven ant container with corrosive-resistant inner liner.	

Mixture			
Chemical name	Common name and synonyms	CAS number	% w/w
Sulfamic Acid	Amidosulfonic Acid	5329-14-6	60-80
N-(1-Naphthyl)ethylenediamine Dihydrochloride	No data available	1465-25-4	0.5-1.5
Nonhazardous and other components below reportable levels	Not applicable	Not applicable	10-30

SECTION 4: First-Aid Measures

If inhaled

Remove individual to fresh air. Seek medical attention if breathing becomes difficult or if respiratory irritation develops. Give oxygen or artificial respiration if needed.

In case of skin contact

Immediately flush skin with plenty of water for at least 20 minutes. If clothing comes in contact with the product, the clothing should be removed and laundered before reuse. Seek medical attention if irritation develops. Chemical burns must be treated by a physician.

In case of eye contact

Immediately flush eyes with plenty of water for at least 20 minutes. Remove contact lenses if present and easy to do. Continue rinsing. If symptoms persist or in all cases of concern, seek medical advice.

If swallowed

Immediately call a physician or poison control center. Rinse mouth. Never give anything by mouth to a person who is unconscious or is having convulsions. Do NOT induce vomiting unless directed by physician. If vomiting occurs, keep head low so that stomach content does not get into the lungs.

Most important symptoms and effects, both acute and delayed

Refer to section 2 and/or section 11 of the SDS for the most important known symptoms and effects.

Indication of any immediate medical attention and special treatment needed

Provide general supportive measures and treat symptomatically. Chemical burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Keep person under observation. Symptoms may be delayed.

General information

Ensure medical personnel are aware of the material(s) involved and take precautions to protect themselves.

SECTION 5: Firefighting Measures

Extinguishing media Suitable extinguishing media	Use extinguishing media appropriate for surrounding fire.	
Unsuitable extinguishing media	Do not use a heavy water stream. Use of heavy stream of water may spread fire.	
Specific hazards arising from the Fire hazard	substance or mixture Not flammable	
Explosion hazard	Not explosive	
Reactivity	May be corrosive to metals.	
Hazardous combustion products	 Nitrogen oxides, sulfur oxides, carbon oxides, potassium oxides. Other irritating fumes a smoke. 	
Advice for firefighters		
Precautionary measures	Exercise caution when fighting any chemical fire; hazardous fumes will be present.	
Firefighting equipment/instructions	Use water spray or fog for cooling exposed containers.	
Protection during firefighting	Do not enter fire area without proper protective equipment, including respiratory protection.	
Other information	Refer to section 9 of the SDS for flammability properties.	

SECTION 6: Accidental Release Measures

Personal precautions, protective equipment, and emergency procedures

Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Wear appropriate protective equipment and clothing during cleanup. Do not breathe mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protective equipment, refer to section 8 of the SDS.

Environmental precautions

Avoid discharge into drains, watercourses, or onto the ground.

Methods and material for containment and cleaning up

Ventilate the area. Dike the spilled material where this is possible. Stop leak if it can be done without risk. Absorb spillage to prevent material damage. Absorb in vermiculite, dry sand or earth, and place into containers. Prevent entry into waterways, sewers, basements, or confined areas. Following product recovery, flush area with water to remove residual contamination. Never return spills to original containers for reuse. Contaminated absorbent material may pose the same hazards as the spilled product. In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulations.

Reference to other sections

For exposure controls and personal protection, refer to section 8 of the SDS. For waste disposal, refer to section 13 of the SDS.

SECTION 7: Handling and Storage

Personal precautions, protective equipment, and emergency procedures

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe mist or vapor. Do not get in eyes, on skin, or on clothing. Do not taste or swallow. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. For personal protective equipment, refer to section 8 of the SDS. Keep away from incompatibles. Observe good industrial hygiene practices. Label containers appropriately.

Conditions for safe storage, including any incompatibilities

Store locked up. Store in corrosive-resistant container with corrosive-resistant inner liner. Keep tightly capped. Store out of direct sunlight between 36°F–85°F. Store away from incompatible materials (refer to section 10 of the SDS).

SECTION 8: Exposure Controls/Personal Protection

Occupational exposure limits

US ACGIH Threshold Limit Values

Not regulated

US NIOSH: Pocket Guide to Chemical Hazards

Not regulated

US OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Not regulated

Biological limit values

No biological exposure limits noted for the ingredient(s).

Exposure controls

Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rate should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eyewash facilities and emergency shower must be available when handlir this product.	
Personal protective equipment		
Eye/face protection	Wear appropriate chemical safety goggles if contact is likely to occur.	
Skin protection	Wear appropriate chemical-resistant gloves and clothing if contact is likely to occur.	
Body protection	Wear appropriate protective clothing if contact is likely to occur.	
Respiratory protection	In case of insufficient ventilation, wear suitable respiratory equipment. Use a NIOSH/MSHA approved respirator if there is a risk of exposure to dust/fumes at levels exceeding the	

exposure limits. Advice should be sought from respiratory protection suppliers.

SECTION 9: Physical and Chemical Properties

Information on basic physical and chemical properties

Physical state	Solid
Form	Powder
Color	Off-white
Odor	Odorless
Odor threshold	No data available
рН	No data available
Evaporation rate	No data available
Melting point	No data available
Freezing point	No data available
Initial boiling point (boiling range)	No data available
Flash point	No data available
Specific gravity	No data available
Auto-ignition temperature	No data available
Decomposition temperature	No data available
Flammability (solid, gas)	No data available
Upper Flammability Limit	No data available
Lower Flammability Limit	No data available

Vapor pressure	No data available	
Vapor density	No data available	
Relative density	No data available	
Solubility	Soluble in all proportions	
Partition coefficient (n-octanol/water)	No data available	
Viscosity	No data available	
Explosive properties	No data available	
Oxidizing properties	No data available	
ECTION 10: Stability and Read	ctivity	
Reactivity	May be corrosive to metals.	
Chemical stability	Stable under recommended handling and storage conditions (refer to section 7 of the SDS).	
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.	
Conditions to avoid	Contact with incompatible materials. Do not use in areas without adequate ventilation.	
Incompatible materials	Bases. Strong oxidizing agents. Reducing agents. Metals. Chlorine. Fuming nitric acid.	
Hazardous decomposition products	No hazardous decomposition products under normal conditions.	
ECTION 11: Toxicological Info	ormation	
Information on toxicological effect	S	
Likely routes of exposure are sk		
Most important symptoms/effects, acute and	Direct skin contact may cause corrosive skin burns, deep ulcerations, and possibly permanent scarring.	
delayed	Direct contact with concentrated solutions may be corrosive and may cause severe damage, including blindness. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.	
	Inhalation of dusts can cause respiratory irritation. Symptoms may include coughing, choking, and wheezing. Inhalation could result in pulmonary edema (fluid accumulation). Symptoms of pulmonary edema (chest pain, shortness of breath) may be delayed.	
	Ingestion may cause gastrointestinal irritation, nausea, vomiting, and diarrhea.	
Acute toxicity	This product is not classified as an acute toxicity hazard.	
Skin corrosion/irritation	Causes severe skin burns.	
Serious eye damage/eye irritation	Causes serious eye damage.	
Respiratory sensitization	No data available	
Skin sensitization	No data available	
Germ cell mutagenicity	No data available	
Carcinogenicity IARC Monographs. Overall Eval Not regulated	uation of Carcinogenicity	
OSHA Specifically Regulated Su Not regulated	ubstances (29 CFR 1910.1001-1096)	
US National Toxicology Program	n (NTP) Report on Carcinogens	
Not regulated	· · · · · · · · · · · · · · · · · · ·	
Reproductive toxicity	No data available	
Specific target organ toxicity (single exposure)	No data available	
Specific target organ toxicity (repeated exposure)	No data available	
Aspiration hazard	No data available	

SECTION 12: Ecological Information			
Ecotoxicity	This product is not classified as environmentally hazardous.		
Persistence and degradability	No data available		
Bioaccumulative potential	No data available		
Mobility in soil	No data available		
Other adverse effects	Large or frequent spills can have a harmful or damaging effect on the environment.		

SECTION 13: Disposal Considerations

Collect and reclaim or dispose of in sealed containers at a licensed waste disposal site. Since emptied containers may retain product residue, follow label warnings even after container is emptied. This material and its container must be disposed of in a safe manner. Dispose of contents/container in accordance with local/regional/national/international regulations.

SECTION 14: Transport Information

DOT	
UN number	2967
UN Proper shipping name	Sulphamic Acid
Reportable Quantity	
Class (Subsidiary risk)	8
Label(s)	8
Packing group	III
Special provisions	IB8, IP3, T1, TP33
Packaging exceptions	154
Packaging, non-bulk	213
ΙΑΤΑ	
UN number	2967
UN Proper shipping name	Sulphamic Acid
Class (Subsidiary risk)	8
Packing group	III
Special provisions	A803
IMDG	
UN number	2967
